

ABOUT ENERGY MATRIX

Best Solution

Energy Matrix has designed, manufactured, and supplied decorative lighting for over a decade and has built its foundation on quality customer service along with in-stock products.

The idea of Energy Matrix came into existence because we wanted an easy way for those who are looking for a vast collection of lighting products in a certain budget and also for those working as private contractors, consultant and designers.

Our Philosophy

Light is a precious entity that gives energy to everything in the natural world. People seek brightness in light and light works on people in a physiological and psychological way. Through an ergonomics approach, Energy Matrix seeks to create human-Centric lights for one's mind. Beyond the light's functional brightness, we create further values in comfort and calmness, as well as security and safety. To create a new relationship between "people" and "light", Energy Matrix will continue its challenge.

Solution

What Energy Matrix delivers is not just light equipment. We deliver "light ambience". For example, Supermarkets require an ambience that promotes customers to visit corners in a lively store. On the other hand, Offices require an ambience that is comfortable and lets you focus. With our lighting technology cultivated for more than 10 years, Energy Matrix proposes the best lighting ambience to solve the customers' various problems.

Environment

Lighting is essential to our cultural life. However, lighting requires huge resources and has many issues relating to the global environment. As to LED Lighting Manufacturers Energy Matrix Creating better environments with fewer resources and energy. Pursues eco-friendly products through various activities. It contributes to sustain and improve global environments. There's Less Energy Wastage with LED Lighting, Standard LED can be up to 80% more energy-efficient than conventional lights, and waste far less energy than other styles of lighting.
